

MAXWELL-HIDDEN.

Our limestone hill has one more surprise.

Hidden away behind the winery, it seems hardly worth a second glance. But behind the creaking doors and the disguise of a tool shed, is one of the most intimate and magical subterranean settings.

A cave gouged 40 metres into our limestone hill by one man 100 years ago to grow mushrooms. (A history we now repeat for our restaurant.) This magnificent chamber can be yours. Along with a night you will never forget.

“Magical subterranean setting”

Upon arrival, you will be greeted by our friendly staff at the cellar door. Enjoy a glass of sparkling wine and some scrumptious canapes specially prepared by our chef. Take time to mingle and soak up the view around the vineyard. Then a VIP tour through the winery and kitchen gardens en-route to the Lime Cave.

Chef Fabian Lehmann will design a feast for the senses with a 6-course tasting menu exquisitely matched with wine by owner and winemaker Mark Maxwell. Each course is prepared in the cave and introduced by our talented chef’s team.
